SUMMARY

I am an iOS developer with over two years of experience in mobile development. Passionate about learning new technologies, improving my skills, and growing professionally.

EXPERIENCE

iOS Developer - BALINK

Sep 2022 - Present

- Developing and maintaining high-quality iOS applications using Swift, SwiftUI, and UIKit.
- Collaborating with cross-functional teams to define, design, and deliver innovative features.
- Debugging, testing, and optimizing application performance to meet high-quality standards.

Full-Stack Web Developer - Freelance

(Part-time) 2016 - 2021

- Designed and developed various websites for small businesses, using HTML5, CSS3, JavaScript, React, PHP, and MySQL.
- Ensured responsive design and cross-browser compatibility.
- Provided ongoing support and maintenance for web applications.

NCO - IDF

Nov 2013 - Mar 2015

- Supervised and mentored new recruits during their integration and sorting process.
- Led pre-enlistment tours and training sessions for groups as part of the "Shachar Kachol Project" in the IAF

EDUCATION

- The Open University: B.Sc. Computer Science student.
- iOS Bootcamp: Participated in a 2-month intensive bootcamp at BALINK before starting my current role.
- Online Courses: Completed multiple online courses on platforms like Udemy.

SKILLS

- iOS: Swift, SwiftUI, UIKit, Objective-C, MVVM, Combine, ReSwift, App Store deployment.
- Android: Basic knowledge of Android development with Kotlin, building small projects in my free time.
- Web: HTML5, CSS3, JavaScript, React, Tailwind.
- Backend & Databases: PHP, MySQL, SQL, Firebase.
- Others: Git, GitHub, Bitbucket, Sourcetree, Jira, Postman.

LANGUAGES

- Hebrew: Native.
- English: Upper-intermediate.
- French: Beginner.
